The Music Instrument Website

Priyanka Bandekar

The music instrument website is a online site which allows the user to login and browse through the various items of their interest and add it to the cart. It is developed to provide better user experience with no advertisements.

Some features of the site is that it allows the user to search the instrument by entering the name of the instrument. On entering the alphabet, it displays the list of all instruments containing that alphabet. Another feature is that the user no more needs to click on any button to view the feature description of the instrument, it displays the feature description by just moving the cursor to the link. This saves a lot of time as the user can just read and decide if those are the features they are looking for in that particular instrument.

The various technologies used are AJAX, JSP, JQUERY, HTML, CSS, BOOTSTRAP, JAVASCRIPT.
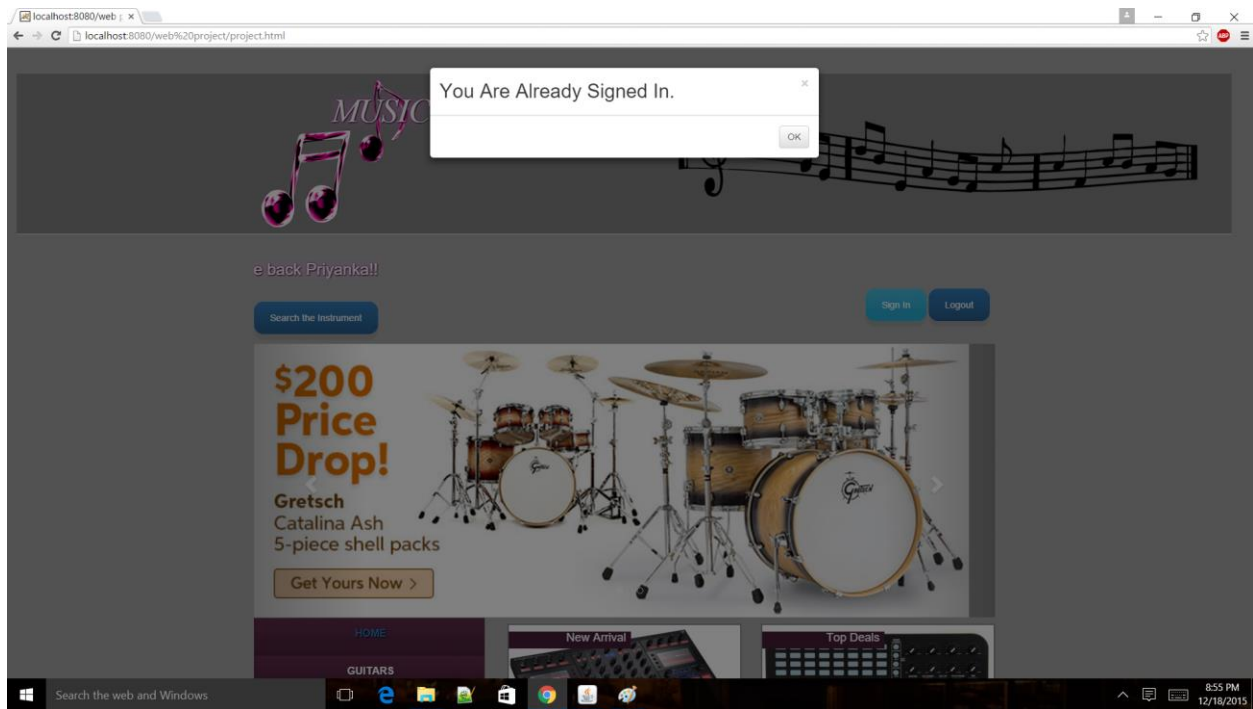

SCREENSHOTS

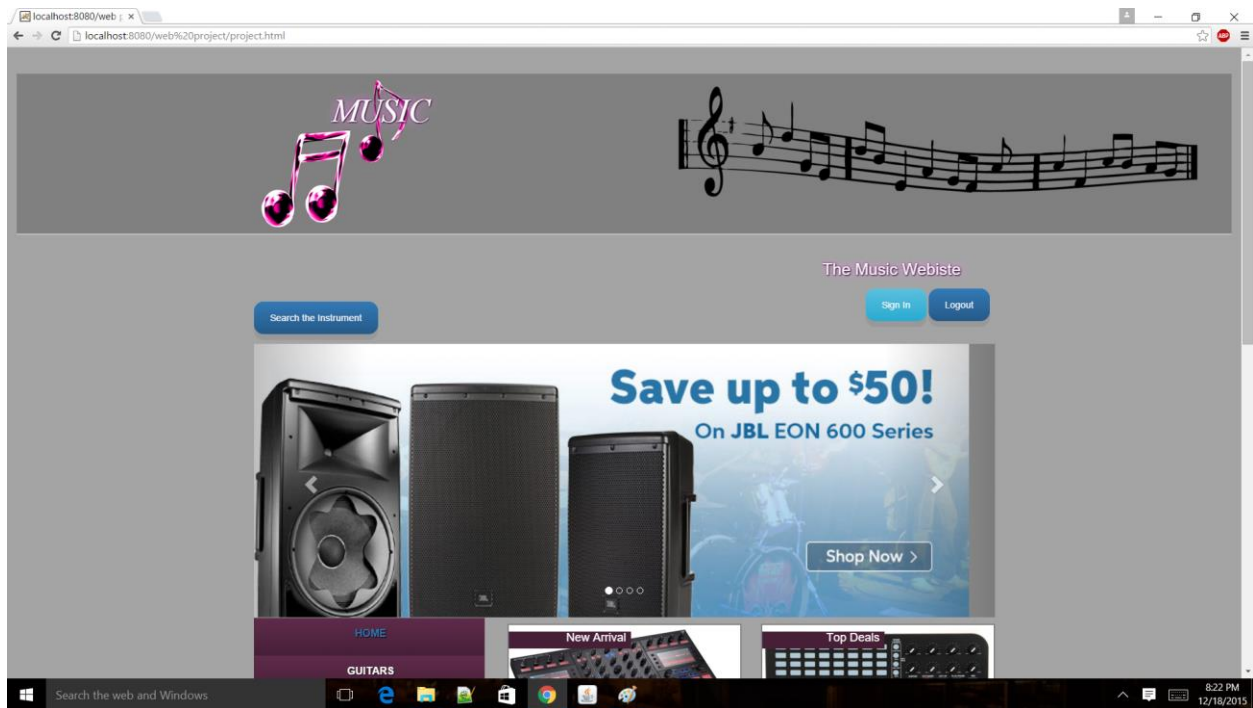

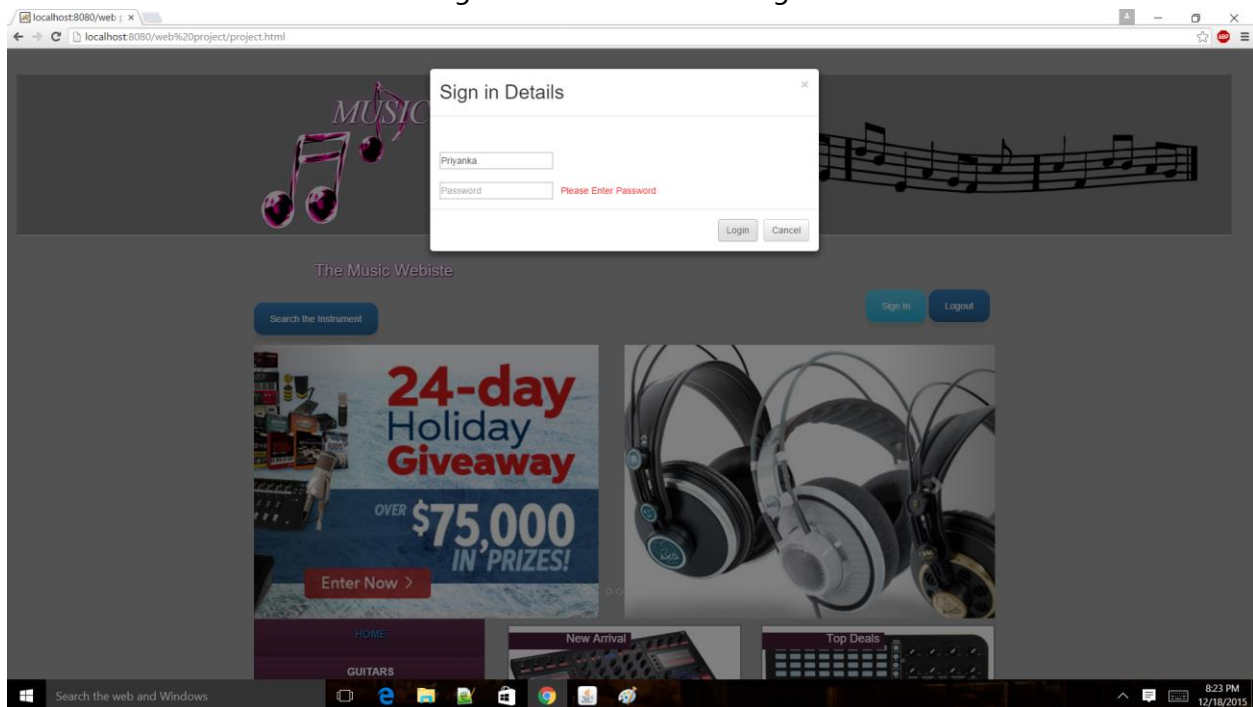

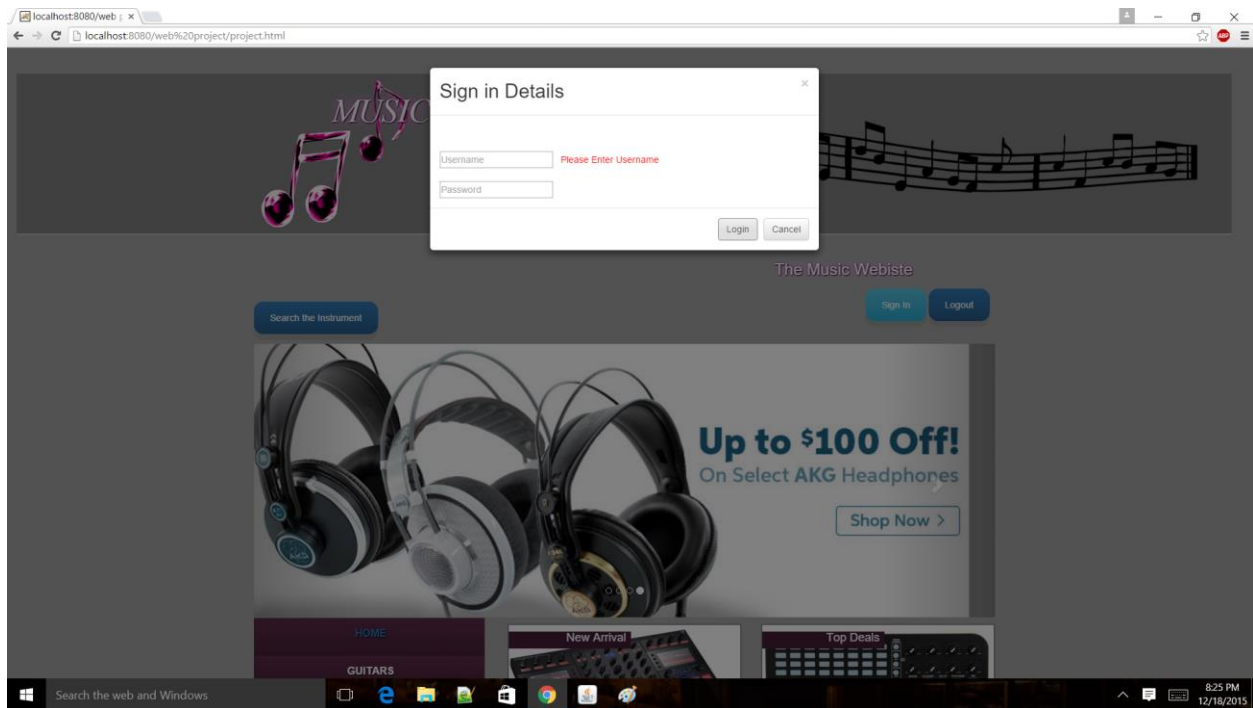

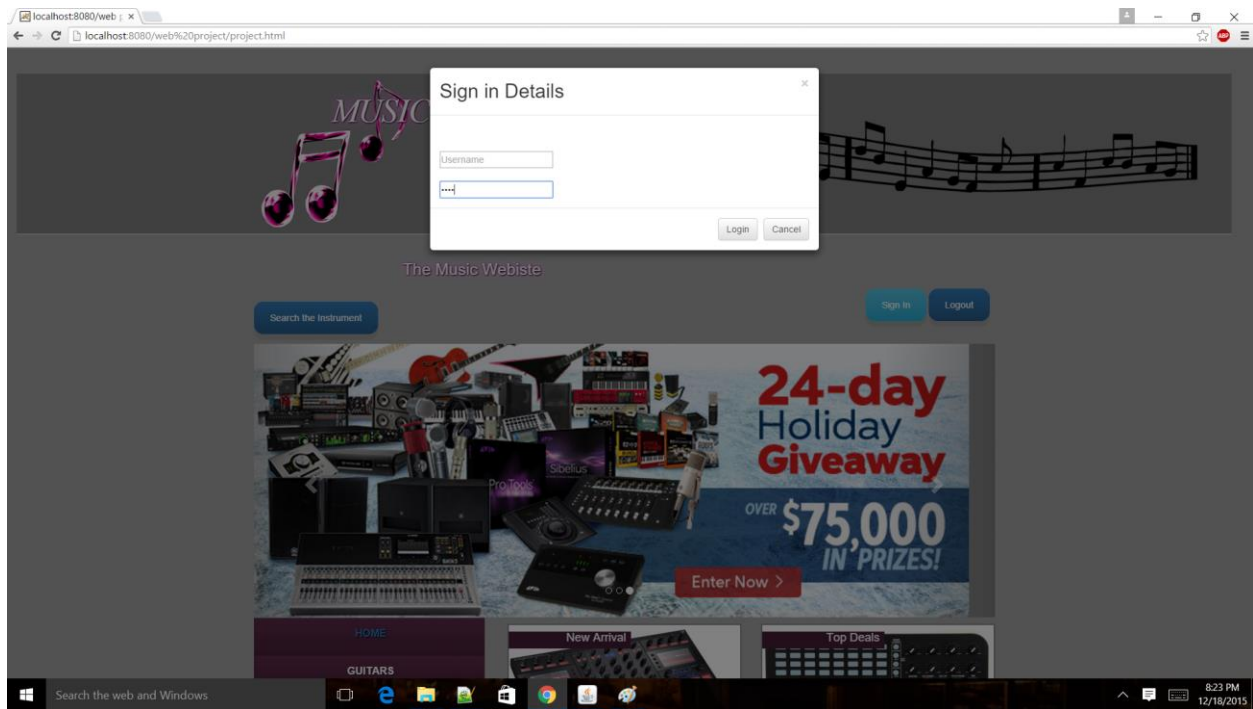

The homepage
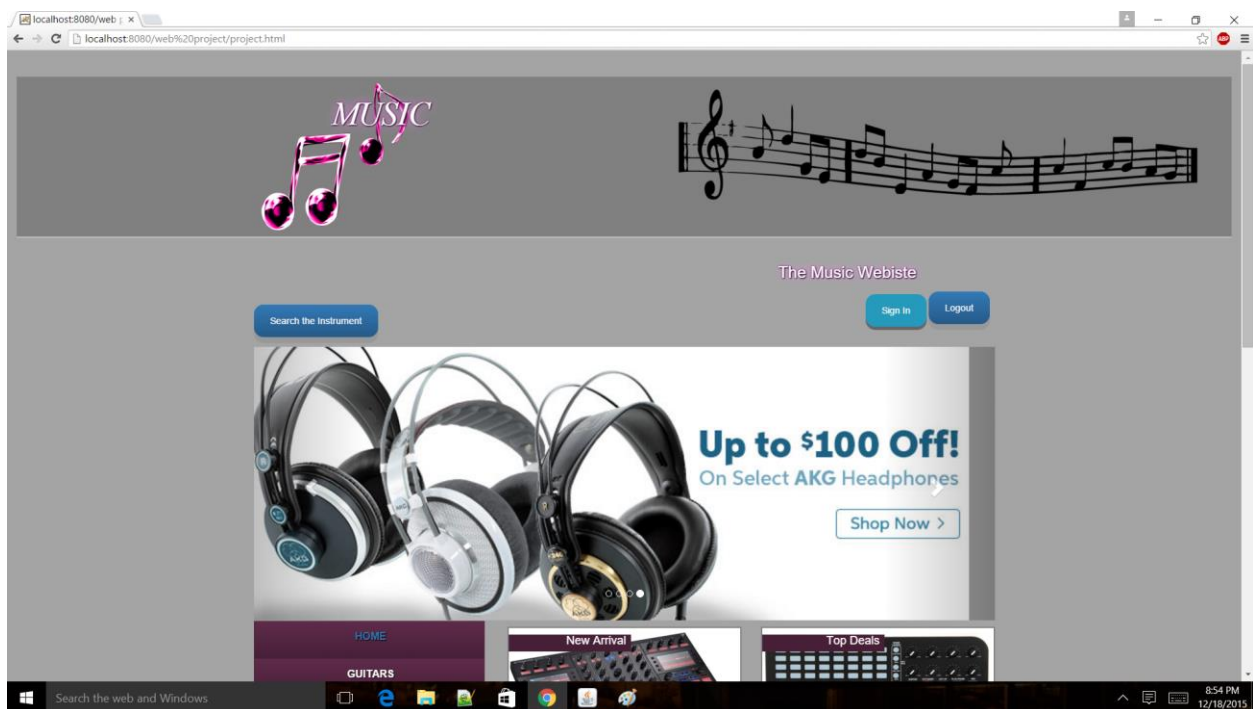

On clicking the Sign In button

User enters the username= "Priyanka" and password= "Priyanka" to login.

Checking the validation of the login modal.
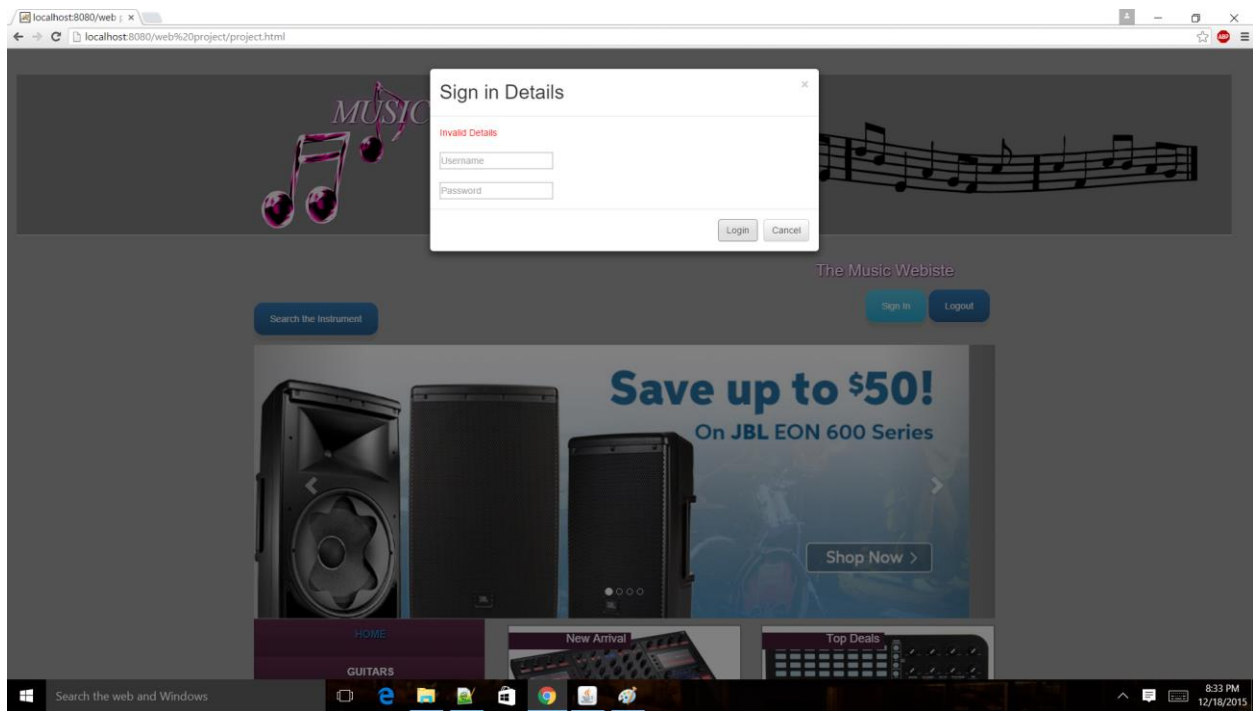

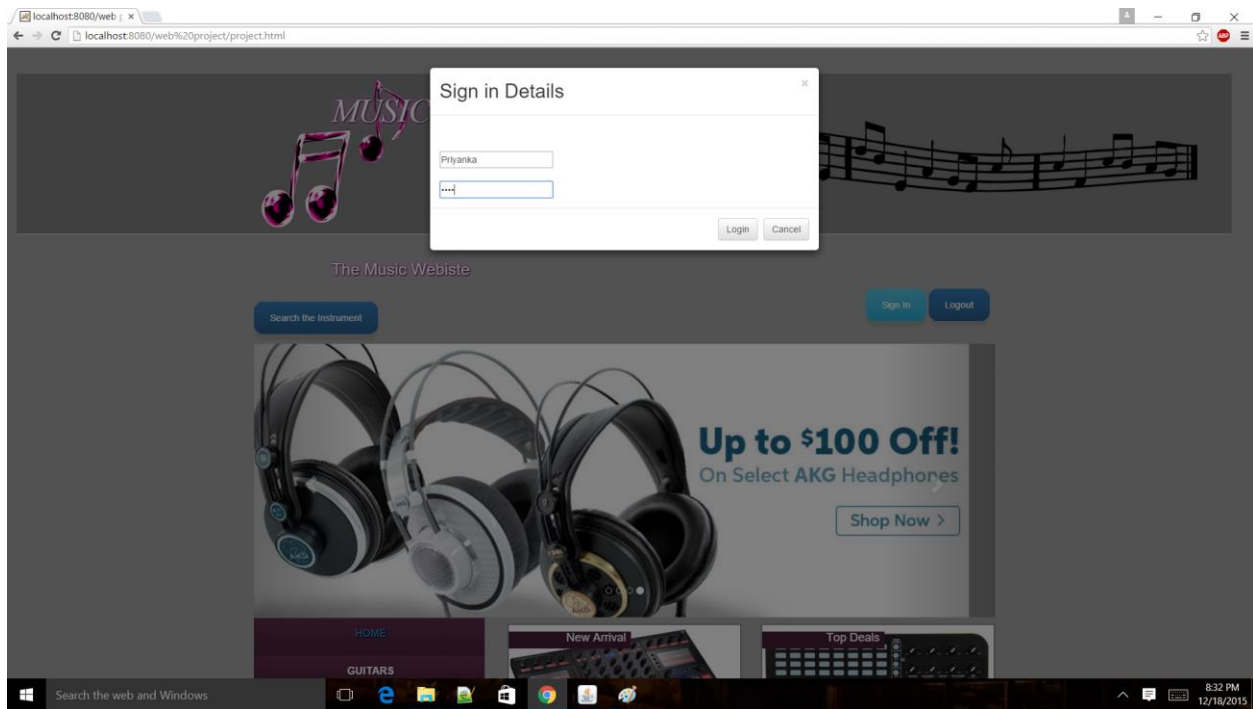

The logout modal
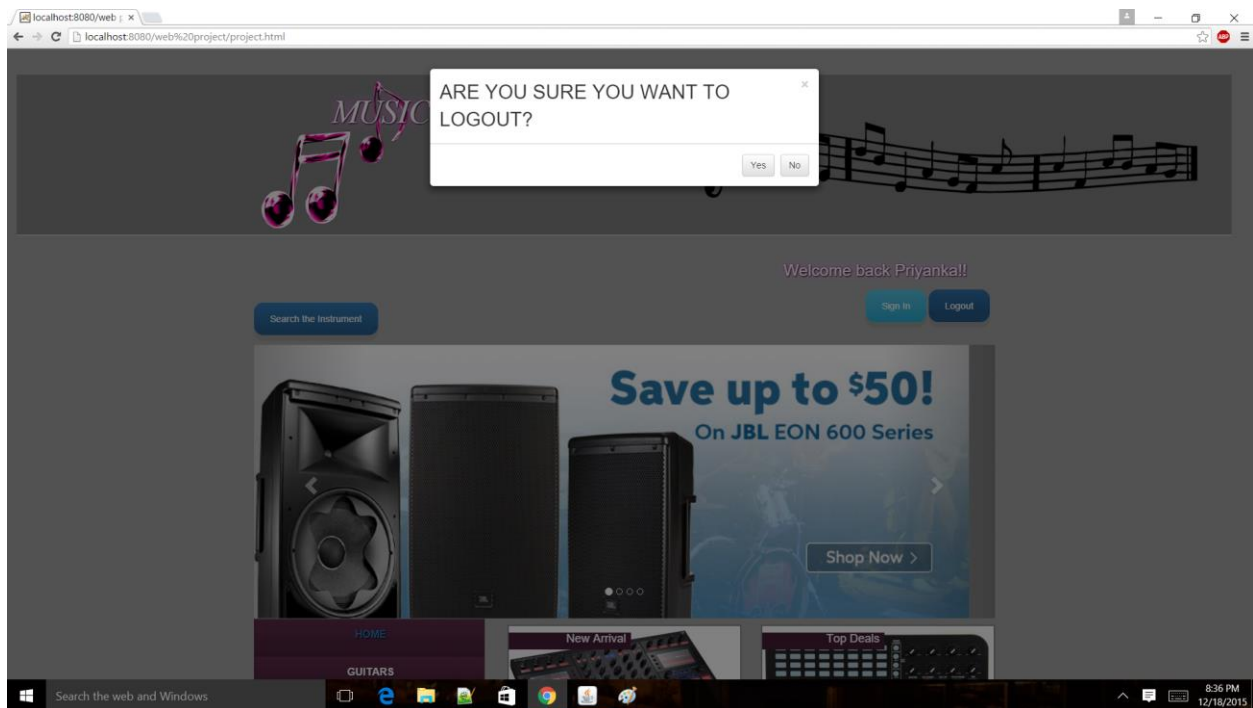

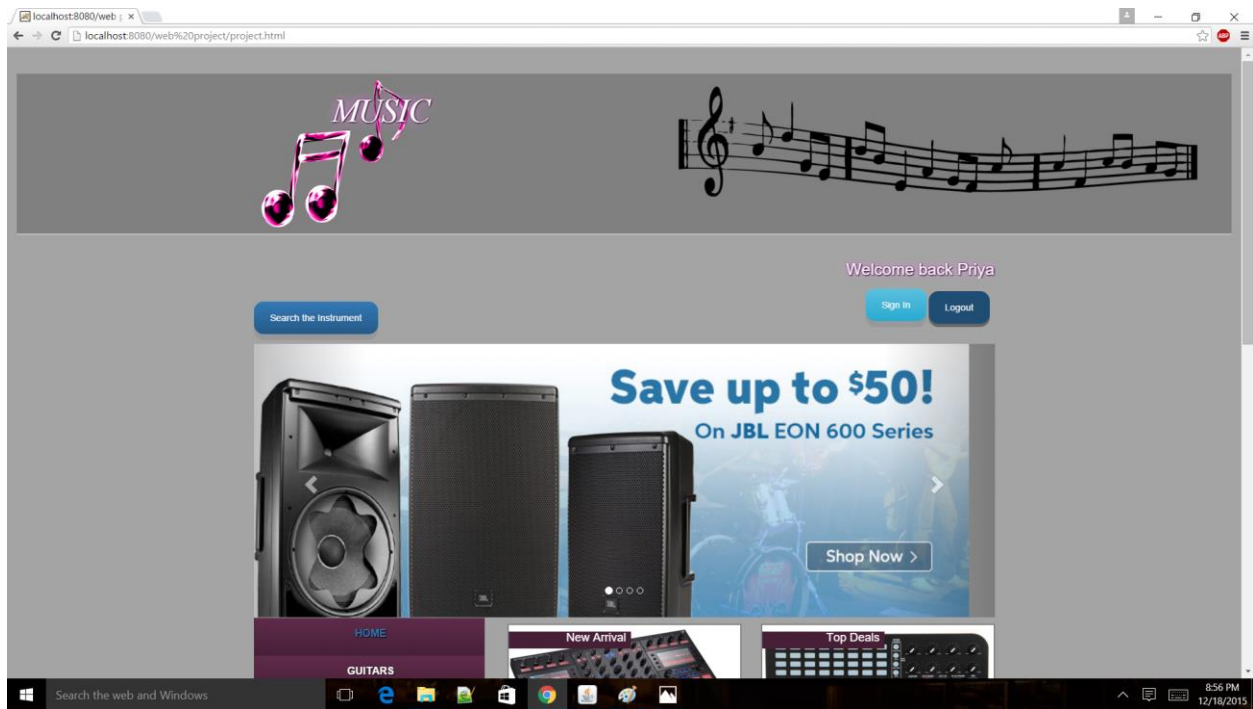

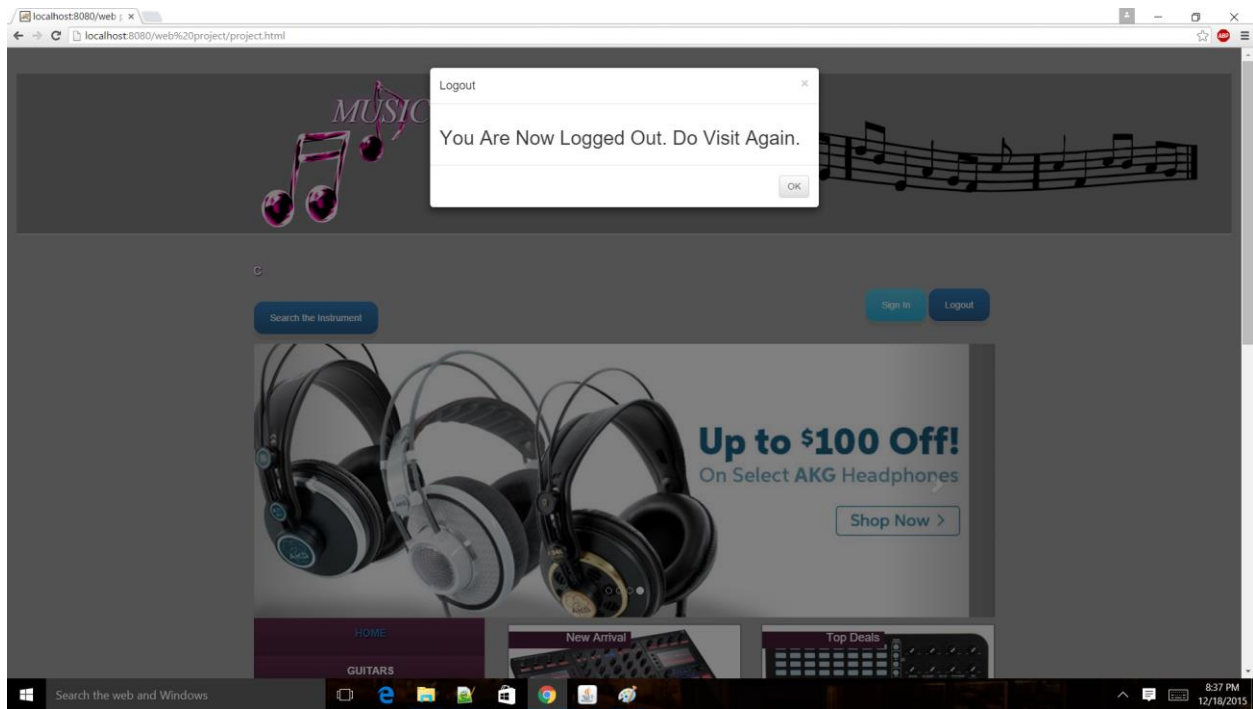

On clicking logout again
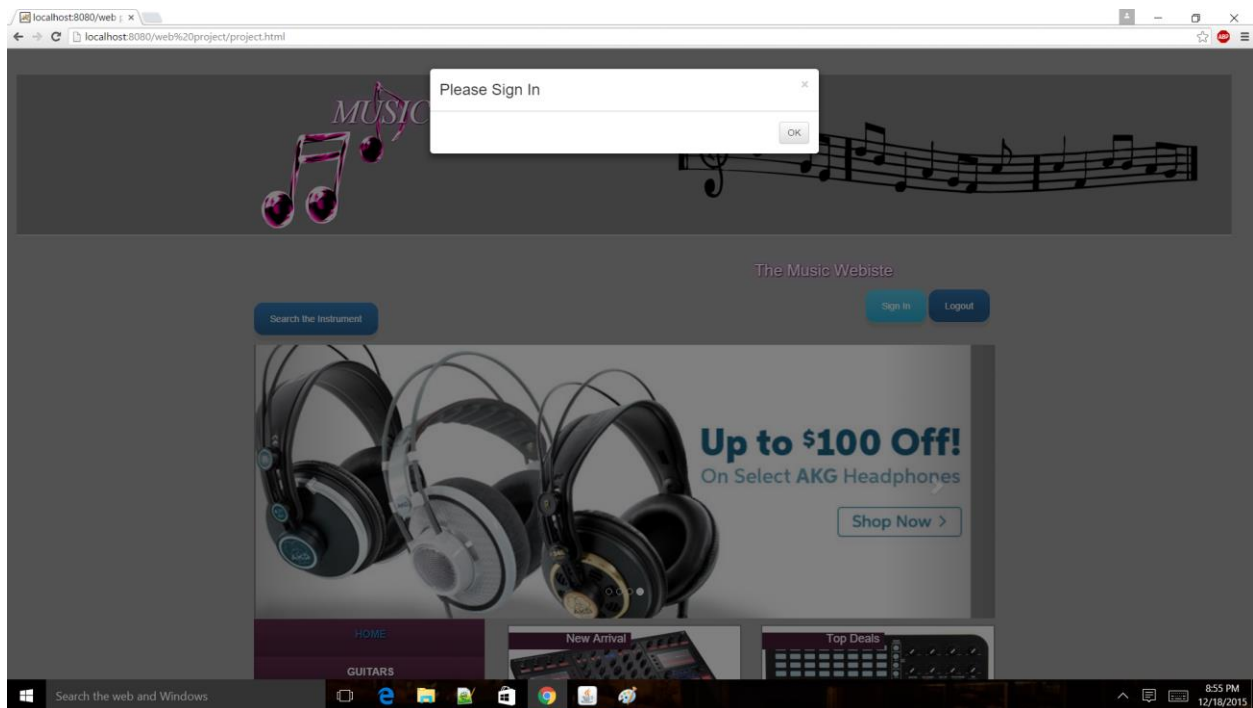

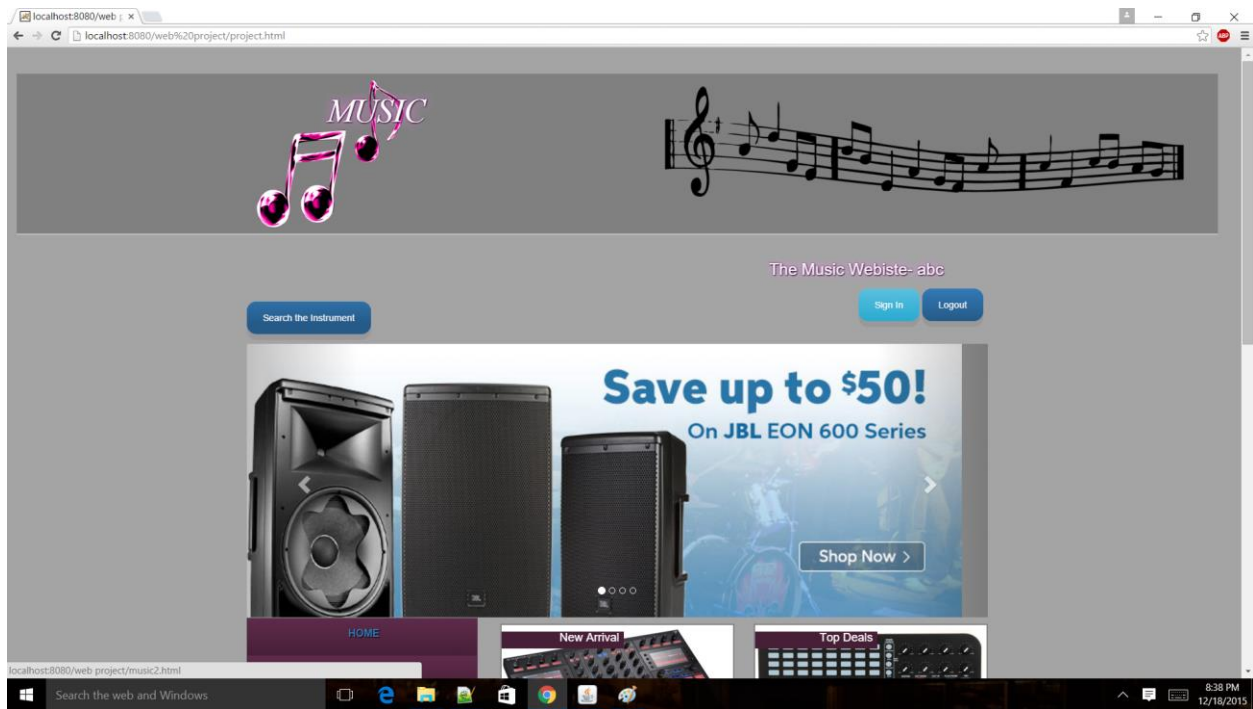

Search the instrument
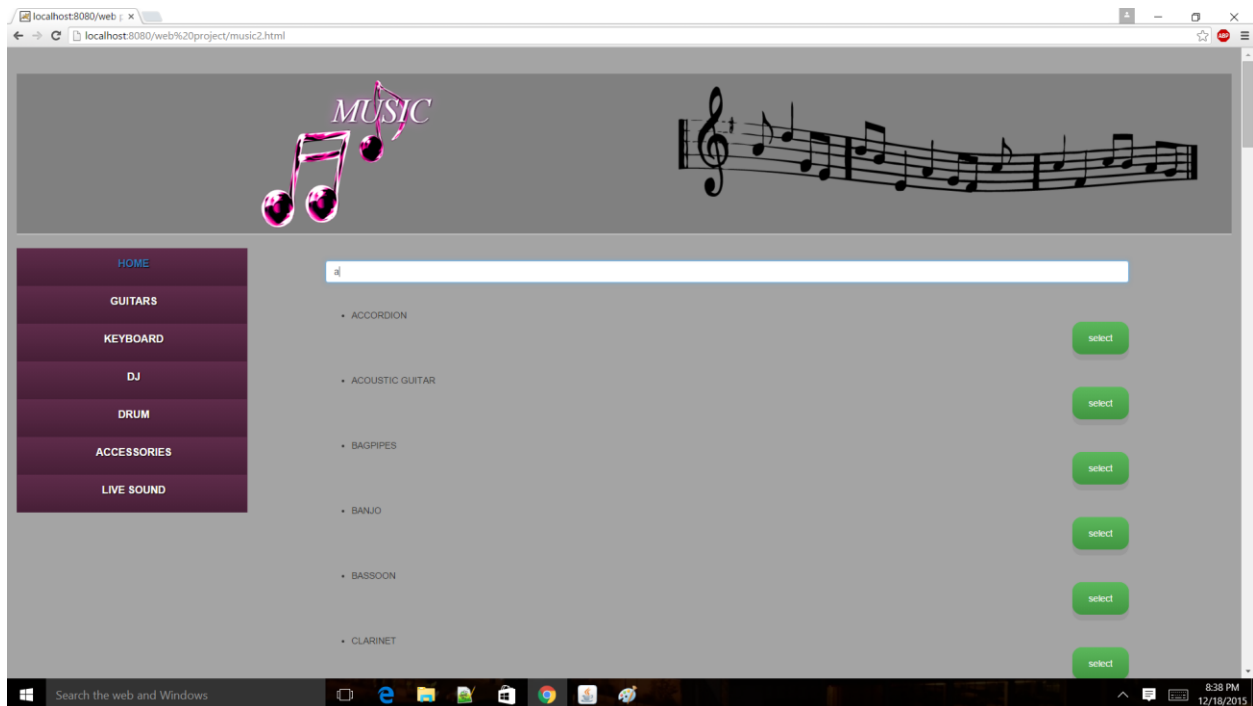

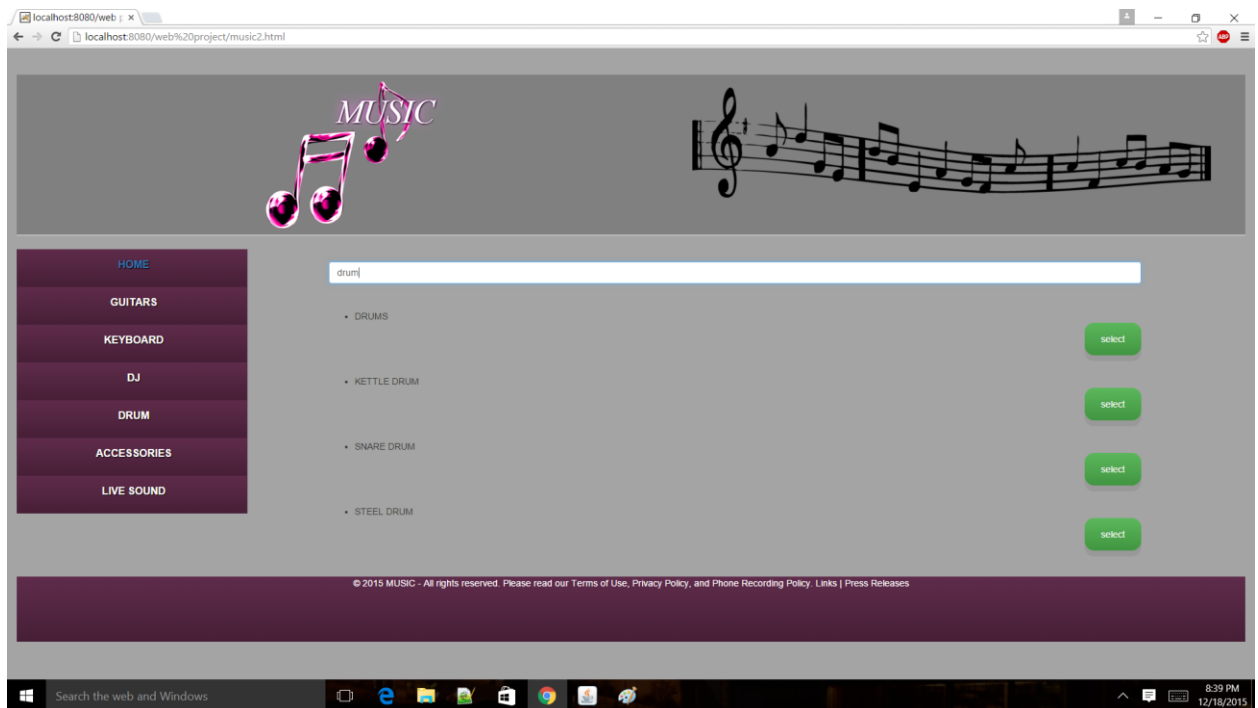

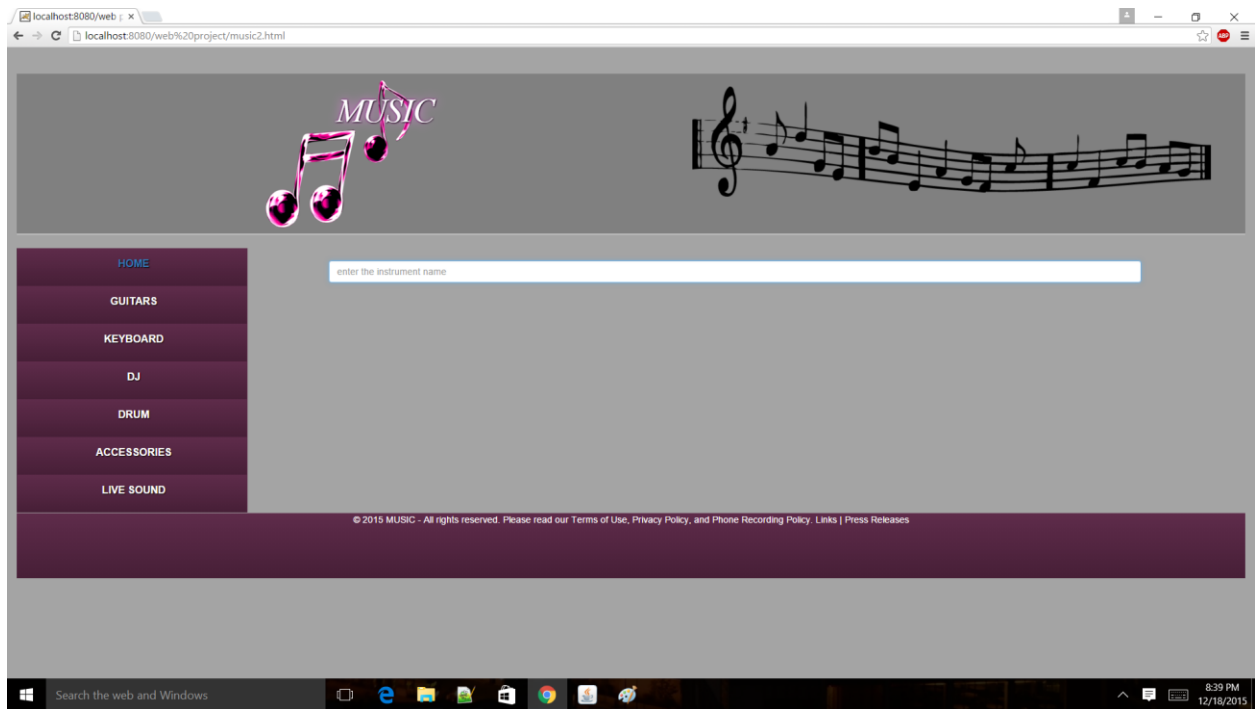

Feature description display
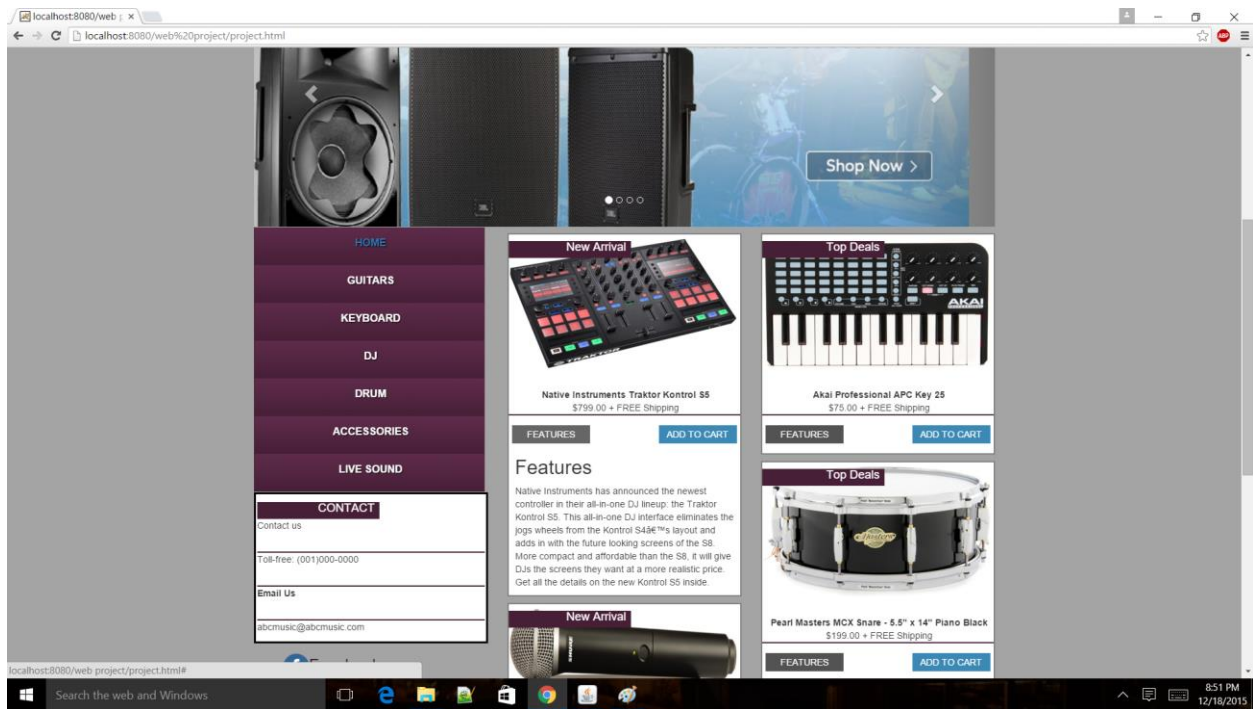

Add to the cart

Submenu on click new display

<div class = "moreinfo5"> <h2>Features</h2>he Pearl Masters MCX1455S snare drum gives you the same 6-ply maple shell

and quality hardware found on Pearl's high-end Masters series (the drums of choice for heavies such as Virgil Donati).

MCX snares sport MasterCast die-cast hoops, which optimize the depth, clarity, and focus of your sound. When tuned high,

this snare delivers a tight, precise punch that'll cut through the densest of mixes. Tune it lower and infuse an impactful,

husky bark without losing definition.

It even has great cross-stick sound. Power your backbeat with legendary Masters sound and quality: the Pearl MCX1455S.</div>
